Dynamic Software Engineer with two years of experience, specializing in Laravel and PHP for backend development and frontend integration. Proven leader in spearheading projects from inception to deployment, enhancing system efficiency and user engagement. Adept in Agile methodologies, committed to continual learning and development to deliver seamless and responsive web applications.

WORK EXPERIENCE

Laravel Developer at Mysoftheaven (BD) LTD. Dhaka, Bangladesh.
Jul 2023 - Present

- Spearheading the development of web applications using the Laravel framework, I contribute to the entire software development lifecycle from conception to deployment.
- Working closely with front-end developers, I ensure smooth integration of user interfaces with server-side logic, delivering cohesive and feature-rich applications.
- I proactively troubleshoot and debug issues, optimizing performance and user experience for our applications.

Communication Officer at Shikhbeshobai IT Limited, Dhaka
Aug 2022 - Apr 2023

- Maintained a database of media organizations and contacts within them.
- Regularly meet with and conduct interviews with media personnel.
- Create and produce internal newsletters for the organization.

Front-end Developer at Startup Cumilla, Cumilla
Jan 2019 - Apr 2022

- Developed websites, mobile applications, and landing pages from concept through deployment.
- Standardized all output with a new, responsive, mobile-first approach and strategy.
- Collaborated with product team members to implement new feature developments.

PROJECTS & WORKSHOP

- **Developed an E-commerce website (G-Tech):**

  1. Collaborated with the internal marketing team and a small team of developers to build custom websites.
  2. Assist team members with various problem-solving.
  3. Build responsive websites and apply modern techniques.

- **An innovative idea on renewable power & energy to take part in this national competition (Bicchuron):**

  1. Entrepreneurship and development of entrepreneurial ecosystem with resources and creating connections with a local and global network for sustainable development.
  2. Web design & development, Information Technology, ICT focuses on communication.

PROJECTS & LIVE

- **Case Management System:** Collaborated with backend developers to integrate frontend interfaces with backend APIs & enable real-time data exchange and updates using PHP Laravel Bootstrap MySQL.
https://dev.case.gov.bd/
